

A BIG FOOT  
MANUFACTURING COMPANY  
PRODUCT

# The **BIGSTIK**

**Recommended for any pump  
pressure control application  
in hot or cold climates.**

Designed to be a stand-alone pump/pressure control unit. Comes fully assembled and ready for installation. Designed to be placed at the well site in any weather environment.

The design is a bladder containing food grade glycerin located at bottom 16" which transfers pressure to the pressure switch.

**The Big Stik comes standard as a 3' or 4' bury unit with a 1" male npt threaded bottom, a 100lb. pressure gauge, and a 40/60 pressure switch.**
